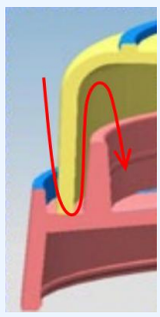
Pre-poured Culture Medium Product Introduction

55mm Contact Disc Product Information

- The anti-contamination structure of the "Pasteurized Curved Neck Bottle"
- Use plastic bags as backup; samples can be transported without contamination and are suitable for observation culture.
- Irradiation sterilization
- Tiple-wrapped
- Product information printed with code, no missing details
- The outer packaging bag is equipped with reserved holes for VHP fumigation.

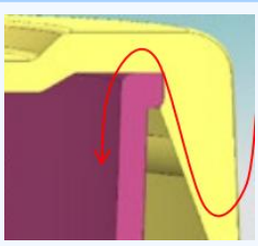


The tablet features a unique "Pasteur Retort" anti-contamination design that ensures optimal air circulation while preventing contamination.
It also effectively prevents culture medium contamination; the plate features a unique locking mechanism that significantly reduces the risk of false positives caused by accidental opening.
The anti-detachment plate structure of the patented technology effectively prevents the detachment of culture medium during sampling.

Product name	Shelf Life (Months)	Packaging Specifications (Pkg)
Soy casein agar culture medium TSA	6	10 per pack
TSA+ Lecithin + Tween 80	6	10 per pack
TSA+ penicillinase	6	10 per pack
TSA+ cephalosporinase	6	10 per pack
TSA+ Lecithin + Tween 80 + Histidine + Sodium Thiosulfate	6	10 per pack
TSA+ Lecithin + Tween 80 + Penicillinase	6	10 per pack
TSA+ Lecithin + Tween 80 + Cephalosporinase	6	10 per pack
Sabouraud (Luo) agar culture medium SDA	6	10 per pack
SDA+ Lecithin + Tween 80	6	10 per pack
SDA+ Lecithin + Tween 80 + Histidine + Sodium Thiosulfate	6	10 per pack

Product Information for 90mm/70mm Plate Culture Media

- The anti-contamination structure of the "Pasteurized Curved Neck Bottle"
- Irradiation sterilization
- Use plastic bags as backup; samples can be transported without contamination and are suitable for observation culture.
- Product information printed with code, no missing details
- Triple-wrapped
- The outer packaging bag is equipped with reserved holes for VHP fumigation.
- Matching with 90mm air sampler
- Suitable for finger sampling



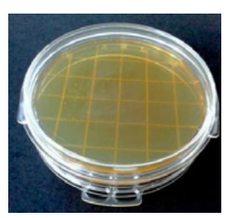
The tablet features a "Pasteur Retort" design.
The anti-contamination structure not only ensures optimal air circulation but also effectively prevents contamination of the culture medium after unpacking.

Order Information for 90mm/70mm Plate Culture Media

product name	Shelf Life (Months)	Packaging Specifications (Pkg)
Pancreatic Soy Agar Medium (TSA)	6	10 per pack
TSA+ Penicillinase	6	10 per pack
TSA+ cephalosporinase	6	10 per pack
TSA+ Lecithin + Tween 80	6	10 per pack
TSA+ Lecithin + Tween 80 + Histidine + Sodium Thiosulfate	6	10 per pack
TSA+ Lecithin + Tween 80 + Penicillinase	6	10 per pack
TSA+ Lecithin + Tween 80 + Cephalosporinase	6	10 per pack
Shanghai Dextrose Agar Culture Medium (SDA)	6	10 per pack
SDA + Lecithin + Tween 80	6	10 per pack
SDA+ Lecithin + Tween 80 + Histidine + Sodium Thiosulfate	6	10 per pack
Colombian Blood Agar Culture Medium	6	10 per pack
blood agar culture-medium	6	10 per pack
McConkey Agar Culture Medium (MCA)	6	10 per pack
Brain and heart infusion fluid agar culture medium	6	10 per pack
Nutrient Agar Culture Medium NA	6	10 per pack

Product Information for 75mm Plate Culture Medium

- **Irradiation sterilization process**
- **Self-sealing paper-plastic bag**
- **Full Information Traceability Spraying Code**
- **Three-layer protective structure**
- **VHP Fumigation Adaptation**
- **Professional Instrument Collaboration**



product name	Shelf Life (Months)	Packaging Specifications (Pkg)
Pancreatic soybean peptone agar medium (TSA)	6	8
TSA+ Lecithin + Tween 80	6	8
TSA+ Penicillinase	6	8
TSA+ cephalosporinase	6	8
TSA+ Lecithin + Tween 80 + Histidine + Sodium Thiosulfate	6	8
TSA+ Lecithin + Tween 80 + Penicillinase	6	8
TSA+ Lecithin + Tween 80 + Cephalosporinase	6	8
Shanghai Dextrose Agar Culture Medium (SDA)	6	8
SDA+ Lecithin + Tween 80	6	8
SDA+ Lecithin + Tween 80 + Histidine + Sodium Thiosulfate	6	8

The product can also be customized as needed. Please call us for more information.
